Starting a food business?

We know that early stage food entrepreneurs are hungry for knowledge but have limited resources.

The JPG Garden was built by entrepreneurs, founders and strategists with a desire to partner with progressive new food companies looking to grow unique and viable businesses.

We have helped over 500+ food companies and launched thousands of great food products and brands since 2009.

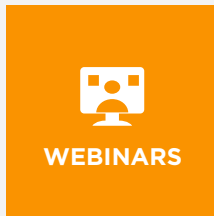

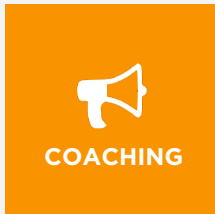

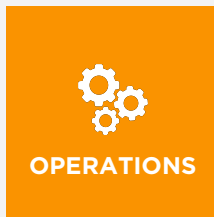

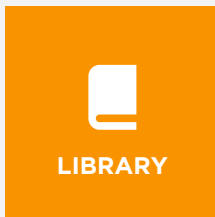

We provide value to our clients with sound advice on critical issues like:

Product • Packaging • Placement • People
Pricing • Promotion • Process
